

**THE LASH AND THE SPURS.**—Mr McLean, of Pennsylvania, a devoted supporter of the President, has come out in favor of sustaining the tariff.

"But," said he, "we are called upon as a party to repeal the tariff. The party cry is raised. And the Union is calling on the democratic party here to come up to the work. We have had lectures upon the subject time and again."

Here he read some extracts from the Union and then proceeded:

"As an American, and trusting I have an American heart, I dislike to see the name of Washington in such an association. In our region of country we are not accustomed to it. I will not ask where the editor got his commission. I might be charged with quoting from the other end of the Capitol. But I ask, who mounted this editor with *lash in hand, and freetrade spurs on his heels, to goad our flanks, and drive us up to the work of repeal?*"

#### CLOCKS REGULATED BY LIGHTING.

One of the latest and most wonderful exhibitions of the power of the electro Telegraph, is shown in the regulation and running of clocks, placed far apart from each other. It is stated in a foreign journal, that "a clock has been so arranged in Edinburgh, by its connection with the magnetic wires, that the oscillations of its pendulum mark the hours on a dial plate in Glasgow, and upon another in Edinburgh, at one and the same moment. So perfect is its operation, that the electrical current passes from one city to the other in a second of time not perceptible, since the two clocks never vary perceptibly. When the pendulum in Edinburgh moves to the right the magnetised rod in Glasgow moves in the same direction, and both return together to the left. Two other clocks are also to be placed in the intermediate stations of Linlithgow and Falkirk, to be regulated by the one in Edinburgh. It is proposed, as soon as all the railroad lines are supplied with Telegraphic wires along their whole extent, to establish the general regulator in Greenwich, which will mark a uniform time upon the several stations upon every railroad in the whole kingdom. In this manner the whole country will know the exact Greenwich time and thus will be obviated all the present danger arising from disagreement in watches, and the sad catastrophes they have not unfrequently occasioned, by mistakes in the departures of trains."

**A New Book.**—We shall commence in the course of a few weeks, the publication of a work of a politico-romantic character, written expressly for the Mirror, which will be likely to create some excitement. Not only is the plot full of absorbing interest, its characters distinct and life-like, its incidents striking and well managed, but it develops in the fullest manner the whole election campaign of 1844, and presents the secret actions of parties in that contest. This the author, from twenty years connection with one of the great parties, is fully qualified to perform; and amply does the work prove his ability and his access to sources of most important information. The meetings of a certain secret order are fully and graphically described, causes laid open, prominent men skilfully portrayed, and a mystery apparently inexplicable traced to its source. The work will be interspersed with local descriptions and sketches, showing up the love, law, literature, crimes, and politics of New York, commencing at the 'Five Points' and ending at the 'White House.' The characters will be real—the names only fictitious. The publication will be commenced in the Weekly Mirror as soon as 'Mary Eckar,' which will run through five numbers more, is finished. [N. F. Mirror.]

A gentleman of Richmond, Va., who has left his name with the Editors of the *bill*, proposes to bet a hat that if the bill comes up in the Senate, John Calhoun will, in the first place, make a speech; in the second place, that he will finely and emphatically recognize the principle of protection; thirdly, that in his claim to be perfectly consistent; fourthly, that he will undertake to show, either that he has always advocated reasonable protection to all industrial pursuits, or that circumstances have changed, but that he has not; and lastly, that he votes against the bill.

A lawyer on his death bed, gave all his property to a lunatic asylum, giving as a reason for so doing, that he wished his property to return to the same class to patronized him.

"Never be critical upon the ladies," was the maxim of an old Irish peer, remarkable for his homage to the sex; "the only way to the world that a true gentleman ever will attempt to look at the faults of a pretty woman, is to shut his eyes."

The following parody on a well known nursery tale, was intended for the American Punch, but the proper engravings not being prepared, will defer its appearance in that publication.

#### DR. TYLER'S

VEGETABLE FEVER AND AGUE PILL.

THE GREATEST REMEDY.

A certain, safe and effectual cure for Ague and Fever, in all its varied forms. Also, an excellent Tonic in Dyspepsia, Palpitation of the Heart, Loss of Appetite, Neuralgia, Nervous and other diseases which arise from a weak and debilitated condition of the system.

The success of these pills in curing in a few hours, where all other remedies have failed, and that too, in cases of twelve and eighteen months' standing, warrants the assertion that, if taken according to the directions, they are a certain cure. A long list of certificates in proof of their infallibility might be added, but those upon the directions are deemed sufficient. Try them and be convinced that they are the most effectual and most certain, and the very best remedy ever offered to the public, to insure a permanent and lasting cure.

BALTIMORE, Dec. 12, 1845.

Having for several years past suffered under repeated attacks of chills and fever especially during the fall and spring months, I was induced to try various remedies, but nothing seemed to be effectual, until I tried Dr. Tyler's ague and fever pills, which stopped the chills before I had taken half the box. This was over a year since, and I have remained perfectly free from any symptoms of a return to this most loathsome disease.

GEO. M. WAIT.

BALTIMORE, Dec. 15, 1845.

Dr. G. K. Tyler:—Dear sir: It is with great pleasure that I announce to you a perfect restoration of my health by the use of your invaluable pills. I had been suffering from Chills and Fever for eighteen or twenty months, during which time I took five bottles of Rowand's Tonic Mixture, Dr. Sherman's Fever and Ague Lozenges, Dr. Love's Vegetable Elixir, Keener's Powders, Barks, Quinine, Thompsonian Medicines, Arsenic, Herbs, and in fact almost all the popular remedies I could hear of; and yet received no lasting benefit. The chills were stopped by Quinine and other things, but after a few days or weeks they would return again as bad or worse than before. Towards the last, the chills came only every third day, and these were followed by fever of such severity as to affect my reason, and it was found necessary for some one to watch with me until the paroxysm passed off. At last I procured a box of your pills, and only took four of them; this so completely stopped the chills, that I have never had a return of them up to this time, (nearly two years,) and near a year of this time was passed in the same place where I first caught the disease.

That my case is not one cured by chance, is proven from the fact that four pills out of the same box cured Capt. Reuben Banks, so effectually that he has never had the disease since, whereas before he often suffered from it. Two other persons were also cured by the contents of this same box, and they neither of them have had a return of it, although they both reside where they are exposed every season.

I know several others who have been cured by your pills, but it is unnecessary to detail their cases. The best certificate of their efficiency in Chills and Fever, will be a few doses, and if they are as beneficial to others as they have been to me, they may be truly called a public blessing.

I am with much respect, your obedient servant, HENRY BRISCOE
